# HE AI Policies

Salim Razi

Policies should be carefully developed and implemented with the collaboration of all stakeholders.

Serious problems with policies in many European HE institutions (e.g., Glendinning et al., 2022).

Policy deficiencies can be a threat to the realisation of AI and the quality of educational outcomes.

Fundamental dimensions of policies:  
• detecting AI breaches,  
• reacting to unacceptable academic conduct, and  
• promoting academic integrity values.

Many policies focus on the detection and reaction dimensions.

The most frequent type of AI breach in HE is plagiarism, but contract cheating is a growing threat.

Student conduct can be influenced sustainably:  
• by raising the awareness level of all stakeholders in HE institutions.

Policies should prioritise education and deterrence, for creating and maintaining a sustainable culture of AI.
